

Meritor Parts

Meritor Parts - Meritor is a premier international supplier that is proudly built on a one hundred year custom of service and quality. They concentrate on different modules, integrated systems and components to original equipment makers and the aftermarket for the industrial and transportation trades.

Meritor prides itself in the company's distinctive energy and feels that this energy contributes to their competitive advantage in the international operations. The company values all of their customers and wishes to guarantee their success while anticipating their various requirements. Meritor begins with a culture which values diversity of individuals and their broad thought processes. Operating in 19 countries and hiring more than 11,200 people, Meritor encourages collaboration and innovation amongst a team of knowledgeable experts.

Meritor strongly believes in only hiring future focused staff. These top-caliber workers can rapidly adapt to changing environments and freely demonstrate the level of performance and commitment considered necessary to be able to get results for the competitive market environment. The company empowers their teams to make sound business decisions to be able to improve the overall success of the company. In return, Meritor provides their staff different chances for personal and professional development.

Their Advanced Engineering team is at the forefront of components and system engineering which include axles, drivelines, suspension and braking systems intended for heavy duty and medium trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is even responsible for supporting the requirements of their worldwide engineering workers.

The Quality team at Meritor is a dynamic and customer-focused group that is devoted to ensuring optimum growth at their production plants and aftermarket distribution facilities which are located on 5 continents and in 19 nations.

They have their supplier network that is specifically located to support the development of the business. Every regional team has internationally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making within every aspect of the company. The DFSS or also known as Design for Six Sigma ensures product reliability in every region. The team is even comprised of transactional Green Belts who utilize Six Sigma tools to business methods and apply lean techniques.
