Clark Totalift, covers more than 120,000 specific parts built for 20 distinctive brands of lift trucks and automated equipment. Your regional Clark Supplier is your complete source for availability of all your components requirements offered by Clark Totalift.

Clark features a exceptional Parts Distribution team. The parts warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their customers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Motivated to supply the highest level of value and service to our clients, Clark remains on the leading edge when it comes to enhancing productivity and benefiting performance.

Clark Totalift has a very amazing international support network. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the material handling market.

Clark proudly remains an progressive leader of the industrial equipment industry, revolutionizing protection features such as the operator restraint system. This exceptional dedication to safety is at this time a standard feature on every lift truck.

Clark's continual goal to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck producer across the world to be certified with the internationally accepted quality standard ISO 9001 for each and every one of their production plants. Additionally, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental restrictions, thus placing them in a prevailing market position.

Clark has selected the very economical and advantageous structure of "Lean Manufacturing" for its assembly facilities and application of resources. This structure was established to acknowledge the most successful method of production facility management and ensuring maximum efficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards improving product proficiency while minimizing costs. The contemporary value engineering agenda combines progressive product growth and provides improved consumer support and service within the industry.
